

Programming for the LIVING

11/1/07 4:31 PM

Reel Hot Lava has been a dream of mine for many years. It has had many names and has been over discussed by me. Finally, a website exists that can broadcast the videos brewing in my mind.

What is the MEDIA SUBJECT area of REEL HOT LAVA:

Conceptually looking at being alive (humans only)

using visual and audio media to bring about new choices (patterns) in living on earth

ask not what your planet can do for you, but what you can do for your planet. (comedy: transport garbage to other planets?)

Programming for living possibilities

Reinventing the media

Programming: to share new ways of perceiving reality, to be an example of LIVING IN THE LIGHT (Warriors of the light-book)

Shifting the notion of being rich in money to being rich in LIFE (Comedian, Ralphie Mae, "retards are happy" – we spend billions on drugs to be retarded – by drinking and doing drugs to check out)

instigating individuals to awaken from sleep and totally integrate "bee happy it's free"

Natural living practices – ecological Martha Stewart

create vibration bed of global change by focusing on positive and possibilities of what we desire (no doomsday focus)

- Happy News
- Climate controls in your hands
- Flip It – see the good
